

LBTC Camps Covid-19 and Respiratory Virus Protocols

**Please note these protocols are subject to change to stay current with public guidelines in effect at the time camp operates.*

- All campers, staff, and on-site volunteers must self-screen daily prior to arrival at camp by completing the following screening tool: [STOP COVID-19 & Respiratory Viruses \(toronto.ca\)](https://www.toronto.ca/stop-covid-19-respiratory-viruses). Individuals are only permitted to attend camp if they pass the screening.
- Parents/guardians are asked to drop-off and pick up at the designated areas (JellyBeans – outside covered hut/ Jr. Tennis – outside fence of tennis courts).
- All campers and staff should practice proper hand hygiene, respiratory etiquette (ex: cough/sneeze into elbow) and mask where appropriate (i.e. where advisable by public health guidelines).
- Campers and staff will be reminded to perform proper hand hygiene before and after eating and using shared equipment, after using the washrooms, blowing their nose and before touching their faces.
- If applicable, campers must stay with their designated cohorts (if applicable)
- If a camper, staff member or on-site volunteer begins to experience symptoms of Covid-19 or Respiratory Illness while at camp:
 - The individual will be immediately separated and isolated from other campers and their parent/guardian will be contacted so they can be picked up.
 - Anyone providing care to an individual with covid-19 or respiratory virus symptoms must use appropriate precautions, including wearing a mask and social distancing.
 - The ill individual must wear a mask if tolerated and be reminded of frequent hand washing and respiratory etiquette.
 - Symptomatic individuals or parents/guardians should follow the advice of public health and the [STOP COVID-19 & Respiratory Viruses \(toronto.ca\)](https://www.toronto.ca/stop-covid-19-respiratory-viruses)
 - The isolation space where the ill individual was staying should be cleaned and disinfected once they leave.
